Standard Position Description #S000B3

U.S. Fish and Wildlife Service National Wildlife Refuge System Refuge Law Enforcement Officer Standard Position Description Park Ranger (Refuge/LE), GS-0025-7/9

Introduction

This is an intermediate-level position in which the employee must successfully complete or have already completed required screening and testing procedures to serve as a commissioned refuge law enforcement officer for the U.S. Fish and Wildlife field station. The employee performs law enforcement duties that are integral to the conservation and use of the Service's natural resources and natural resource responsibilities. The employee must apply basic knowledge of the fundamental conservation mission of the Refuge System and how this mission relates to the various activities of the Refuge/location to which assigned.

The primary purpose of this position is the enforcement of Federal laws and regulations through the investigation, apprehension, and detention of individuals suspected or convicted of criminal activities and misdemeanors such as arson, illegal hunting and fishing, disturbance of fish and wildlife, firearms violations, timber theft, hazardous material violations or dumping, vandalism, theft or disturbance of archeological resources, illegal harvesting of plants and animals, traffic violations, marijuana cultivation, use or sale of illegal drugs, crimes against persons or property, and trespassing on Service lands.

Note: This standardized position description represents the intermediate, developmental level of the position to which the employee is assigned. The employee receives assignments of the type outlined below. Noncompetitive promotion to the full-performance, target-level position (Job Number -S00003) is subject to: (a) the employee adequately performing the full scope of the duties and responsibilities of the next-higher level; (b) the position remaining classifiable at the assigned title, series, and grade; and, (c) the employee meeting qualification and regulatory requirements.

Major Duties

1. Law Enforcement (55-85%)

Serves as a commissioned law enforcement officer performing law enforcement duties. These duties include but are not limited to detecting; investigating; apprehending; detaining, arresting, and/or issuing citations; and prosecuting violators of a variety of law enforcement acts, laws, rules, and regulations that have been enacted to insure the protection and safe use of national wildlife refuge resources.

Investigates the occurrence of criminal activity, arson, theft, breaking and entering, vandalism, pollution of the air and water, destruction of property, or offenses of the criminal laws and regulations of the United States that relate to Service lands and responsibilities. Develops information through fact finding by collecting evidence; interviewing witnesses or suspects; pursuing leads; searching records; conducting surveillance; observing suspicious activity; and, compiling information from informants, concerned citizens, and local, Federal, and State officials.

Investigates violations of applicable Federal and State fish and wildlife laws including poaching, illegal hunting of waterfowl, illegal use of aircraft for hunting migratory waterfowl and commercial fishing. Enforces applicable laws and regulations concerning the possession, use, distribution, trafficking, cultivation, and manufacture of controlled substances on Service lands. Investigates incidents occurring on Service lands involving searching for or removal of objects of antiquity. Investigates other incidents which occur on Service lands.

Prepares investigation or case reports by documenting findings and facts, obtaining witness statements and copies of official records, and including pertinent evidence, correspondence, maps, historical information, exhibits, and photographs. Issues citations and files criminal complaints; prepares U.S. District Court Violation Notices for submission to the Central Violations Bureau. Checks the records of suspects and offenders for prior violations by contacting various State law enforcement agencies. Apprehends violators of Federal and or/State criminal laws and takes offenders and suspects into custody when such action is appropriate. Seizes evidence, preserves and protects it, and properly disposes of it upon completion of cases. Requests and presents justification for warrants for defendants who fail to appear in court. Prepares cases of a more serious nature for the appropriate U.S. Attorney's Office for prosecution. Meets with prosecuting attorneys, presents testimony, and delivers evidence. In cooperation with the U. S. Attorney, recommends fines, probation, administrative action, monetary restitution, and/or reclamation of damage to the court. Represents the National Wildlife Refuge System in court.

Carries out activities to deter activities which are illegal or potentially harmful to the natural resources or visitors to the refuge; familiarizes permanent, seasonal/temporary, and collateral duty law enforcement personnel with Federal and State laws governing management of natural resources; and designs and provides training in law enforcement skills, techniques, and practices to prevent and/or detect illegal activities.

Meets with refuge users, such as recreationists, cooperative farmers, oil and gas producers, and permittees, to provide information as to the Service's mission and policies, and the laws and regulations applicable to its lands and other natural resources. Ensures compliance of regulations and permit stipulations by Service land users.

Maintains liaison, exchanges information, and coordinates ongoing law enforcement activities with other Federal, State, local law enforcement agencies, and other Service refuge law enforcement staff and Special Agents. Participates in ground and air surveillance that may involve flying as a passenger in aircraft, to identify suspects and illegal activity. Cooperates in investigation and disposition of cases. Participates with other refuge law enforcement staff or Special Agents on special details and investigations related to controlled substances, commercial exploitation of plants and wildlife, and execution of warrants.

As part of the employee's official duties, assists local law enforcement agencies from time to time, including occasional emergency assistance. Also enforces game and fish laws in accordance with any limitations imposed by the State.

2. Refuge Law Enforcement Work Planning (10-20%)

Receives assignments with increasing involvement in the formulation, development, execution, and evaluation of the local law enforcement program's operational plans, practices, and procedures, incorporating resource management objectives and concerns;

and coordinating the implementation of ongoing, new, or changed policies and plans. Assists in the planning and execution of analyses to assess the existing level and type of resources devoted to the program, including the development and compilation of evaluation reports with recommendations on improvements, and devises solutions to specific problems that interrelate with important issues such as visitor use and safety. Provides tentative advice and guidance to the Refuge Manager/Project Leader, and to other refuge supervisors and employees on law enforcement/protection issues that are increasingly based on a greater understanding is developed. Reviews existing regulations and proposals for 50 CFR, Parts 32 and 33, which deal with such matters as refuge hunting and fishing programs. Provides recommendations for change for approval by the Refuge Manager/Project Leader. May review investigation/incident and other reports prepared by collateral duty and other officers for compliance with policy, adequacy, and completeness. Identifies regulatory and security issues and recommendations and/or initiates corrective action.

Develops effective working relationships within and external to the Service by working with supervisors to plan or carry out public awareness campaigns to enlist the cooperation and the participation of private citizens in alerting authorities to suspicious activity on or around the refuge, or meeting with officials such as those of Federal, State, and local law enforcement agencies to plan and arrange the sharing of resources and support to prevent harm to resources, property, visitors, and personnel. Assumes an increasingly more active role in educating the public through meetings, assemblies, and other information sessions (associations, school boards, contractors, homeowners associations, user groups) by giving presentations and briefings that explain the complexities, interdependence, and significance of Refuge fish, plant, wildlife, and cultural resources and emphasize the bases underlying refuge laws and regulations through the employee's growing knowledge of these resources. May assess the need for, and develop materials such as brochures, publications, and custom signage, and submit these to the supervisor for approval.

3. Combined Adjunct and Miscellaneous Duties (5-35%)

Directs and/or participates as a member of search and rescue teams. Provides and/or obtains first-aid/emergency medical assistance. Operates motor vehicles, or special purpose law enforcement vehicles of various types including small watercraft.

May prepares and makes interpretive presentations to visitors to explain Service mission and law enforcement issues, and to encourage voluntary support of natural resource protection.

Uses automated computer technology including databases, software, and communications capabilities to carry out duties including preparing correspondence, local and national reports, entering and manipulating data, communicating information, and ensuring data quality and system integrity.

May provide technical direction and guidance to other commissioned refuge law enforcement staff, or others assigned to assist in law enforcement activities and special investigations on a temporary basis.

May perform various resource management support duties such as collecting fish and wildlife population and habitat information according to established protocols in the course of activities in and around the refuge, participate in arson investigations; issue special use permits in accordance with refuge management plans and policies; inspect concessions facilities; oversee fee collection activities; conduct fire, health and safety inspections;

provide security or otherwise participate in wildland firefighting efforts; or assist in law enforcement activities at other locations.

FACTORS

1. Knowledge Required by the Position

Basic knowledge of law enforcement and general administrative methods and techniques which help provide a foundation for understanding the objectives of the refuge law enforcement program, the basic concepts of conservation, and the objectives of the U.S. Fish and Wildlife Service and the Refuge System.

Skill to communicate and interact with others in a professional manner in carrying out basic assignments and in completing training.

Ability to detect, prevent, and/or curtail illegal and prohibited activities of a potentially destructive nature to refuges and their resources; and skill in observing, interpreting, evaluating, and drawing correct conclusions regarding the overall impact of Service law enforcement policies and practices on natural resource management and fish and wildlife recovery efforts.

Knowledge and understanding of the individual and collective natural resources constituting the refuge ecosystem, and of the laws and regulations (e.g., National Wildlife Refuge System Administration Act, Migratory Bird Treaty Act, Migratory Bird Hunting and Conservation Stamp Act, Bald Eagle Protection Act, Lacey Act, etc.) governing situations that frequently occur on Service lands.

Ability to successfully complete the Land Management Law Enforcement Course at the Federal Law Enforcement Training Center (FLETC) or equivalent training, Refuge Officer Basic School (ROBS), and to obtain a commission as a Service law enforcement officer. Skill in the use of firearms, self-defense techniques, prisoner control methods, electronic surveillance and intrusion detection devices, and two-way radios. Thorough understanding of the methods of investigation and obtaining and maintaining a chain of custody, interviewing and interrogation techniques, and methods and patterns of criminal operations.

Skill to operate a variety of motor vehicles and specialized craft. Must have and maintain a valid motor vehicle operator's license.

Skill in the use of the computer systems, word processing equipment, and special purpose software.

Knowledge of and skill in use of defensive weapons and protective equipment.

Skill may be needed to provide technical direction to a small staff of employees.

2. Supervisory Controls

The Refuge Manager or other supervisor assigns the overall area of responsibility. However, on a day-to-day basis another higher-level or more experienced employee may provide technical direction for training purposes including special tasks and detailed instructions on the use of selected methods, procedures, and techniques to be used for each assignment, particularly on program management work. Work is subject to review in progress and upon completion and assistance is typically available when original

instructions or guidelines prove inadequate. Review is for technical adequacy, completeness, compliance with instructions and for indications that the employee has the capability to perform more difficult and more responsible assignments.

Work assignments of a type that the employee has not yet performed are usually subject to the greatest degree of review. However, during the course of the employee's development the assignments are performed with a gradually decreasing degree of review until the employee assumes the full scope of the duties and responsibilities of the target level position. Nevertheless, a greater degree of independence is expected to more rapidly be developed and assumed in personally performed/operational law enforcement work than work/program planning assignments.

Technical guidance and support is available from Special Agents and from scientific personnel at the refuge upon request. The employee keeps the supervisor generally informed about the work performed and about significant problems and issues which arise. Also provides information and suggests solutions: to enforcement matters of a sensitive nature, to potentially controversial situations, and to conditions warranting departure from established policies.

3. Guidelines

The intermediate-level trainee receives to receive specific and detailed instructional materials and oral instructions covering legal and administrative law enforcement principles, policies, laws and regulations, techniques, work process, and standard and established procedures. The guidelines, as supplemented by instructions/directions, are typically applicable to assignments, and work is normally performed in accordance with the guidance received although judgement is required as to the selection of guidelines and which of several alternatives to use.

The guidelines include Departmental and Service policies and manuals on established law enforcement concepts and practices as applied to conservation lands, and basic legislation such as the Title 50 Code of Federal Regulations, Endangered Species Act, Lacey Act, and the National Wildlife Refuge System Administration Act. Detailed guidelines are available from the Refuge Manual, Service Manual, Director's Orders, Department Manual, Regional releases, the Law Enforcement Handbook, biology and wildlife management texts, and local refuge publication. The employee frequently adapts guidelines and exercises judgment when encountering field situations, such as confrontation with violators or suspects.

The nature of the personally performed law enforcement work is such that the employee may not be able to rapidly refer to guidelines for situations that occur. The employee must exercise judgment in interpreting guidelines and in adapting and applying them, and, as may be necessary, deviating from them to meet the unusual or emergency situation.

4. Complexity

The assignments consist of a variety of specific tasks or duties, which continue to provide developmental experiences in refuge law enforcement work, including the various principles, policies, techniques, procedures, etc. Typically, the tasks involve routine and limited assignments performed individually or by assisting an experienced law enforcement officer in the performance of tasks/parts of more difficult assignments for training purposes.

On personally performed law enforcement work the employee continues to gain exposure

and experience in the use of a variety of established law enforcement procedures and methods (e.g., patrol, surveillance, interviews, interrogations and vehicle searches, record checks, issuance of citations, preparation of written reports, and court testimony) in the course of identifying, investigating, apprehending, and aiding in the prosecution governing public use of refuge lands and resources. Work contributes to the overall fish and wildlife conservation mission of the Refuge System and is complicated by the wide variety of law enforcement situations encountered and the need to enforce diverse Federal and State laws and regulations and Service policies in situations which may involve emotionally unstable, agitated, or alcohol/drug influenced persons. Each situation must be carefully assessed before an appropriate course of action is selected and carried out.

Complexity is reflected in the substantive knowledge, skills, and abilities relating to protecting refuge resources while providing for their use and enjoyment. Applies various methods of interpreting and educating the public about the significance of the refuge's resources; undertakes law enforcement measures as necessary. The employee interprets, explains, and motivates interest in the refuge's resources; may personally perform resource conservation work; leads and carries out search and rescue operations; may participate in firefighting operations; provides emergency medical services; and may perform special assignments relating to various aspects of refuge operations and the public use management program.

As additional skill and knowledge and skill is developed the employee must choose the appropriate course of action in particular situations based on independent analysis of the situations and of the numerous variables which define the situations. In many situations encountered in carrying out the wide-ranging, varied, and highly specialized duties, the employee defends refuge policies and regulations in an atmosphere of physical and psychological challenge, confrontation, and hostility.

The employee must increasingly apply skill to use judgment to assess the conditions and variables quickly and make on-the-spot decisions in selecting the best course of action from among the various alternative approaches, methods, and techniques available for achieving the three-tiered objectives of resource management, resource education, and effective public use management. Work is complicated by such factors as conflicting criminal, civil, and administrative rulings; complexity of natural resource laws, the nature and extent of violators' methods of operation, the nature and extent of impacted activities, difficulty in establishing interrelationships of facts or evidence, and sometimes poorly identified or understood Service land boundaries.

5. Scope and Effect

The operational work assignments include a full range of enforcement problems, and enable the employee to continue to assume an increasingly more responsible role in supporting refuge management officials to carry out the law enforcement program at an assigned site. Work resulting in the charging or convicting of persons for a violation effect the economic well-being and freedom of individuals.

6. Personal Contacts

The employee has daily contacts with visitors, co-workers, refuge neighbors, and other members of the public. Contacts also frequently include attorneys, judges, representatives of special interest groups and the media, and personnel from other Federal agencies and from State and local law enforcement and emergency service organizations. With respect to visitors to and neighbors of the refuge, the employee's contacts include people who

represent a cross section of the nation and of many other countries of the world. Visitors are of all ages, and are from all social, ethnic, and economic groupings. Most visitors and refuge neighbors can be expected to be law abiding citizens; however, visitors also include individuals who violate the laws, rules, and regulations of the refuge and some individuals who have a history of previous convictions for serious criminal offenses. Officers will provide security and personal protection for VIPs and visiting dignitaries.

7. Purpose of Contacts

The officer is often the first-line-of-contact to the public and must be able to present the purpose of the Refuge System from both a biological and law enforcement perspective. Assignments require collaboration with Service resource managers and a variety of other Federal, State, and local law enforcement agencies whose goals are generally compatible but occasionally require special efforts to reconcile differing viewpoints and demands. Contacts with Service land users and visitors are to enforce laws and regulations governing the use of Service lands, to inform them of the cultural and natural resources on Service lands, and to ensure regulatory compliance. Contacts with private organizations, groups, and individuals are made to exchange information and to stimulate active support of law enforcement efforts, to investigate criminal activity and violations, and to apprehend suspects and violators. Contacts to detect and curtail criminal activity are often dangerous; people encountered are sometimes verbally and/or physically hostile.

8. Physical Demands

The employee's work regularly includes long periods of standing, hiking and/or climbing, in many cases on uneven, steep, rough, slippery, and/or rugged terrain. Operation of a variety of land and water craft over extended periods of time is required. The duties require frequent or strenuous exertion in law enforcement, firefighting, search and rescue, and related emergency activities. Lifting or carrying equipment weighing over 50 pounds may be required.

Duties involve performing physically rigorous assignments, usually in isolated outdoor environments on land, water, and in the air. The employee is frequently exposed to sudden severe weather conditions. Dangerous persons must be physically confronted, subdued, and apprehended, many of whom are known to carry weapons. Prisoners must be kept under physical restraint during transport and processing. Criminal investigations are subject to the need to be carried out without regard to fixed work schedules, scheduled off-duty days, or opportunities for proper rest or nutrition. There is a high-stress component to much of the employee's work assignment.

9. Work Environment

While a portion of the work is performed in an office setting, most of the work is performed outdoors in all kind of weather and climatic conditions on land and/or on the water. The work is performed at various hours of the day and night and for prolonged periods during emergency situations. The employee is subject to frequent exposure to high-risk and potentially dangerous situations in law enforcement and emergency types of situations requiring use of a wide-range of personal protective gear (some of which may be uncomfortable, hot, or inconvenient to wear), adherence to specific safety procedures, and other precautions.

Long periods of surveillance work may be required in cramped, or unpleasant locations and under unpleasant conditions. Subject to the possibility of being frequently assigned

variable work schedules, including shift work.

Exposed to potentially dangerous situations, such as accidents while operating motor vehicles of various types; flying as a passenger in small fixed wing or rotary wing aircraft; and/or operating and/or riding in small watercraft.

Emergency law enforcement operations will require entry into hazardous environments, exposure to dangerous persons, animals, and substances, and potential exposure to infectious diseases. Follows Service and Departmental safety policies wearing protective clothing and using appropriate protective and/or safety devices to reduce or eliminate exposure to dangerous situations.

Note: As a condition of employment the employee must successfully pass or meet the following:

- Screening and testing:
 - Federal Law Enforcement Training Center's Physical Efficiency Battery (PEB)
 - Background Investigation
 - Qualification Inquiry
 - Drug testing
 - Psychological Screening
 - Medical Standards
- Land Management Police Training (FLETC)
- Refuge Officer Basic School
- Cardiopulmonary Resuscitation (CPR)
- First Aid Training
- Maximum entry age and retirement requirements
- Must wear the Service uniform according to policy
- Must have or be able to obtain and maintain a valid motor vehicle operator's license for the required vehicles
- Must qualify and carry a firearm
